

All other items are budgeted at last year's amounts.

The Committee also unanimously recommended an assessment rate of \$0.10 per hundredweight, the same as last season. This rate, when applied to anticipated shipments of 8,800,000 hundredweight, will yield \$880,000 in assessment income. This, along with \$45,000 in interest income and \$186,447 from the Committee's authorized reserve, will be adequate to cover budgeted expenses. Funds in the reserve at the end of the 1994-95 fiscal period, estimated at \$921,500, were within the maximum permitted by the order of one fiscal period's expenses.

An interim final rule was published in the **Federal Register** on May 9, 1995 (60 FR 24539). That interim final rule added § 958.239 to authorize expenses and establish an assessment rate for the Committee. That rule provided that interested persons could file comments through June 8, 1995. No comments were received.

While this rule will impose some additional costs on handlers, the costs are in the form of uniform assessments on all handlers. Some of the additional costs may be passed on to producers. However, these costs will be offset by the benefits derived by the operation of the marketing order. Therefore, the Administrator of the AMS has determined that this rule will not have a significant economic impact on a substantial number of small entities.

After consideration of all relevant material presented, including the information and recommendation submitted by the Committee and other available information, it is hereby found that this rule, as hereinafter set forth, will tend to effectuate the declared policy of the Act.

It is further found that good cause exists for not postponing the effective date of this rule until 30 days after publication in the **Federal Register** (5 U.S.C. 553) because the Committee needs to have sufficient funds to pay its expenses which are incurred on a continuous basis. The 1995-96 fiscal period began on July 1, 1995. The marketing order requires that the rate of assessment for the fiscal period apply to all assessable onions handled during the fiscal period. In addition, handlers are aware of this rule which was recommended by the Committee at a public meeting and published in the **Federal Register** as an interim final rule.

#### **Discussion of Final Rule**

The issuing agencies are amending their property management regulations to remove solely administrative procedures in an effort to reduce federal agencies regulation. The procedures will remain in internal agency instructions. References to Farmers Home Administration ("FmHA") and "County Committee" have been removed to reflect changes made by sections 226 and 227 of the Department of Agriculture Reorganization Act of 1994. Due to the reorganization of USDA, FmHA Farmer Programs now are being

administered as Farm Credit Programs by the Consolidated Farm Service Agency (CFS). FmHA Rural Housing loans and Community Facilities loans now are administered by the Rural Housing and Community Development Service (RHCD). Water and Waste facility loans are administered by the Rural Utilities Service (RUS), and Business and Industrial loans are handled by the Rural Business and Cooperative Development Service (RBCDS). The affected agencies are jointly issuing this final rule.

## Office of Operations

### 7 CFR Part 2812

#### Department of Agriculture Guidelines for the Donation of Excess Research Equipment

**AGENCY:** Office of Operations, USDA.

**ACTION:** Final rule.

**SUMMARY:** The final rule sets forth uniform procedures for the donation of excess research equipment to educational institutions and nonprofit organizations for the conduct of technical and scientific education and research activities as authorized by section 11(i) of the Stevenson/Wydler Technology Act (Pub. L. No. 102-245), 15 U.S.C. 3710(i). This document includes not only the Department of Agriculture (USDA) procedures to implement 15 U.S.C. 3710(i), but also draws upon the General Services Administration (GSA) regulations concerning the disposal of excess personal property. This rule will allow the Department of Agriculture to donate excess research equipment to educational institutions and nonprofit organizations for the conduct of technical and scientific education and research activities.

**EFFECTIVE DATE:** August 2, 1995.

**FOR FURTHER INFORMATION CONTACT:** Denise R. Patterson, Acting Division Chief, Personal Property Management Division on (202) 720-3141.

**SUPPLEMENTARY INFORMATION:** The proposed rule was published in the **Federal Register** on May 13, 1994 (59 FR 24973). During the final rulemaking process, the rule was determined not significant for purposes of Executive Order 12866 and therefore has not been reviewed by OMB.

Two comments were received. The National Aeronautics and Space Administration (NASA) requested that the property be reutilized within the federal government before being distributed. The rule does allow agencies within USDA the opportunity to obtain excess research equipment during the 30 to 45 days that the property remains in the excess system.

It is only after no USDA agency requests the equipment that it is available for donation to an eligible institution. USDA believes that making the equipment more widely available within the Government prior to donation would undermine the purpose of 15 U.S.C. 3710(i), which is to improve science education in the United States thereby advancing American competitiveness. The other comment was from the General Services Administration (GSA). It recommended that the Department of Agriculture target educational institutions located in economically disadvantaged rural and urban cities. USDA believes that targeting educational institutions located in economically disadvantaged rural and urban cities would improve science education in these locations. However, USDA believes that the purpose of this provision can best be achieved by not limiting the donation of excess research equipment. Accordingly, no changes other than some minor corrections have been made to the final rule.

A revision of the "Classification Section" was made because it contained information not pertinent to the rule.

#### Paperwork Reduction

Except for the Gift/Acceptance Agreement contained in appendix A to part 2812, the forms necessary to implement these procedures have been cleared by the Office of Management and Budget (OMB) in accordance with the Paperwork Reduction Act, 44 U.S.C. 3500 *et seq.* The Gift/Acceptance Agreement has been submitted to OMB for clearance under the Paperwork Reduction Act.

#### Classification

This rule has been determined to be not significant for purposes of Executive Order 12866 and therefore has not been reviewed by OMB.

#### Environmental Impact Statement

This proposed rule does not significantly affect the environment. Therefore, an environmental impact statement is not required under the National Environmental Policy Act of 1969, as amended, 42 U.S.C. 4321 *et seq.*
